### ***MANAGEMENT SYSTEMS RE-CERTIFICATION***

Dear Mr Andrew,

Congratulations on achieving Re-Certification. We have the pleasure in advising you that following the Re-Certification Audit of your Company's Management System, SGS International Certification Services has approved the continuation of your certification for a further three years. This is effective from the date of the Re-Certification Audit, 02/11/2004, and runs concurrently from the date of your original certification.

You are entitled to apply the logos as detailed on the 'Use of the Mark' sent to you at certification stage.

In our Code of Practice, you will find detailed information regarding your registration as well as your continued certification. One of the requirements of your certification is that you advise SGS S&SC of any significant changes in personnel, location and work undertaken that may affect your Management System and scope of registration. Consequently, please keep us informed immediately of any changes to the above so that we can review with you, your scope of registration.

Continued certification is subject to the satisfactory outcome of regular Surveillance Audits. The first of these audits has been discussed with you and scheduled with your SGS S&SC Auditor at the end of your Re-Certification Audit.

We are pleased to have you remain as one of our valued clients and wish you every success with your continued, certified status.

If you have any questions, please do not hesitate to contact your local SGS-S&SC Office.

Yours sincerely,  
**SGS SYSTEMS AND SERVICES CERTIFICATIONS PTY LTD**

 Tracie Soucie
